Granite Surface Options

Polished

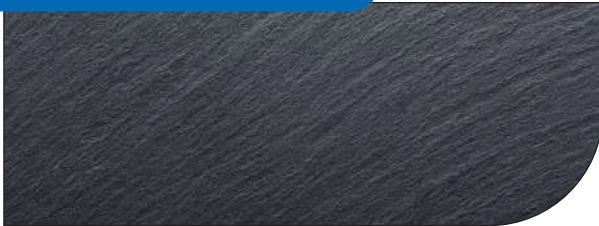

Smooth, glossy and reflective, polished surface granite is a durable and elegant natural stone with a mirror-like finish, enhancing the beauty and colour variations of the stone.

Flamed

Has a textured, rough finish achieved by exposing the stone to high heat, resulting in a rugged, non-slip surface.

Leathered

Features a textured, matte finish that resembles the texture of leather. It offers a unique and sophisticated look, combining the natural beauty of the stone with a subtle tactile appeal.

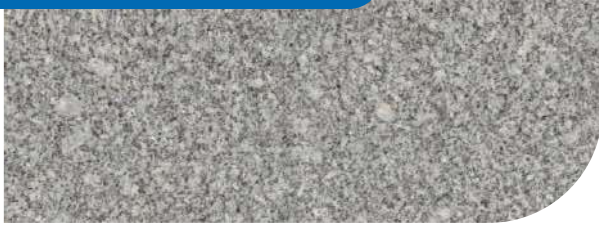

Lepatora

Originating in Italy, it offers a granular, worn-out, yet stylish look. Its non-slippery, easy-to-clean surface combines muted and glossy elements along with matte appearance.

Granite Surface Options

Honed

Has a smooth, matte finish achieved by grinding the stone to a uniform, low-gloss appearance. It offers a refined and understated look with a velvety texture.

Bush-hammered

Features a textured, rough finish achieved by using a specialized tool with pointed hammers. It creates a distinctive, non-slip surface with a natural, weathered appearance.

Brushed

Has a textured, matte finish achieved by brushing the stone's surface with stiff bristle brushes. It offers a subtle, rustic charm with a soft and velvety feel.

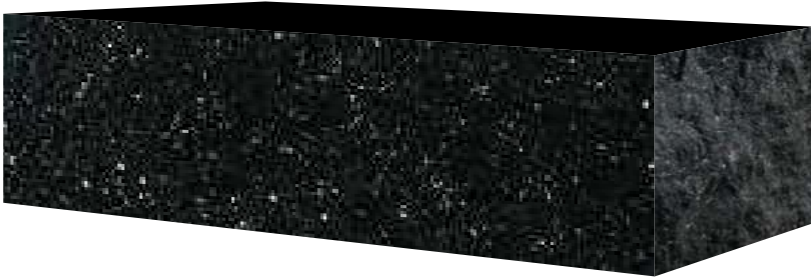

Matte

Surface is anti-skid and gives beautiful natural raw look of the granite.
